DETAILED ACTION

Allowable Subject Matter

1. Claims 1-6, 8-10, 18-20, 23, 24 and 28-37 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Mukaida et al (EP 0 612 533 A1 or US 5,672,419) in view of Sun et al (US 6,124,391) represent the closest prior art to the claimed invention.
3. Mukaida et al disclose a water absorbent composition comprising (A) 100 parts by weight of water absorbing polymer particles [abstract], (B) 0.5 to 30 part of a resin of a resin powder having heat adhesion property [abstract], and 10 weight % or less of an organic or inorganic powder [6:44-49]. While the disclosed range is very close to the claimed range, they do not overlap. Mukaida teaches that going below 0.5 parts by weight of adhesive resin deleteriously affects the shape-retention property of water absorbent composition. Mukaida henceforth teaches away from the claimed invention and one having ordinary skill in the art would have no expectation that the claimed range would have similar properties to the disclosed range.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
